

RAINBO PRODUCTS

Premium Valve Lubricant

RS Clare premium valve lubricants are used to lubricate gate valves installed in a large range of oilfield pressure control equipment for production, drilling, well testing, wellhead maintenance, well intervention & workover and subsea. This unique 'wide application' capability allows field operators to standardise on one valve lubricant whilst ensuring maximum operational protection.

Gate valve lubricant key functions:

- Provide an integral lubricant film between the gate & seat and the threaded stem
- Withstand the high interfacial contact stress between gate & seat surfaces
- Displace corrosive chemicals and fluid from the valve cavity
- Provide a barrier to prevent further ingress of contaminants

Benefits of RS Clare Lubricants:

- Delivers both lubrication and sealing
- Specially formulated to provide optimum resistance to aggressive produced fluids and gases and process chemicals
- Field proven to reduce valve failure in sand service
- Adhesive texture ensure maximum retention in the valve cavity

A cost effective operation:

RS Clare lubricants deliver operational cost savings through:

- Extended preventative maintenance periods
- Fewer unplanned maintenance interventions
- Reduced spend on valve components

Approved by major global valve manufacturers; Cameron, FMC, GE (Vetco Gray), AKER Solutions, Wood group, and NOV (Anson). Rainbo is proud to be an official distributor of RS Clare premium valve lubricants in the following countries: Algeria, Mozambique, Angola, Ghana, Equatorial New Guinea, Chad, Tanzania, Gabon, Ivory Coast, Kenya, Namibia, Nigeria & South Africa.

Rainbo Supplies & Services is a market leading, global procurement trading house, manufacturer and specialist product supplier for the international energy industry. Accredited to ISO 9001 (with 14001 pending) we have over 20 years proven experience equipping our clients and are recognised experts during bid, construction/ commissioning, operations and shutdown phases. Working with major national oil companies such as BP, Shell, Statoil (product approvals and use).
